# EAPETEA-7

The 7<sup>th</sup> East Asia Joint Symposium on  
Plasma and Electrostatics Technologies for Environmental Applications (EAPETEA-7).

## Welcome

It is a great honor and pleasure to invite you to participate in the “7<sup>th</sup> East Asia Joint Symposium on **Plasma and Electrostatic Technologies for Environmental Application 2019**” to be held on **November 26-28, 2019** in **Okinawa Japan**. After the first working group meeting in Jeju (November 22-24 2012), the conference has been held annually moving back and forth between Korea and Japan. From 2017, China has decided to join this symposium. In the meeting, several ongoing critical issues on plasma science and applications will be discussed, such as diagnostics of plasma, commercialized plasma technologies, bio-, medical-, and environmental applications. We hope you will enjoy participating in the EAPETEA-7 in the beautiful island Okinawa, Japan.

## Meeting Topics

- Biomedical Application
- Electrostatic Precipitation (ESP)
- NOx and PM control
- Plasma-assisted Combustion
- Fuel reforming
- Plasma-Catalysis
- Plasma Fundamental and Diagnostics
- VOC and Odor Control
- Water Treatment
- Any New Topics in Plasma and Electrostatics
