

Selected papers from ISEHD 2009 --- Guest Editor's Remarks

Andrew R. H. Rigit, John S. Shrimpton, and David B. L. Bong

This special issue of International Journal of Plasma Environmental Science & Technology (IJPEST) is dedicated to the papers taken from the best of the International Symposium on Electrohydrodynamics (ISEHD 2009) held in Kuching, Malaysia, in March 2009. The symposium was held for 3 days with 9 presentation sessions, a Masuda Lecture and two panel sessions. About 45 submissions from 15 countries were accepted for presentation in the symposium. Each paper in this Special Issue has been reviewed by experts selected by the editors for their expertise and knowledge of the particular subject areas. There are 9 out of some 45 submissions from ISEHD 2009 were selected for inclusion in this Special Issue.

The guest editors of this special issue would like to thank The Electrohydrodynamics (EHD) Technical Committee, IEEE Dielectrics and Electrical Insulation Society (DEIS), International Electrostatic Assembly, sponsors, invited speakers, organizing committee, reviewers, authors, presenters and participants of ISEHD 2009 for their direct and indirect contributions in making the symposium a success.
